

Satin Coat All-Purpose Compound

- Air drying drywall compound
- Easy to mix and sand
- All-Purpose
- For embedding joint tape, finishing joints, fasteners and trim on gypsum wallboard

ProFin® Satin Coat All-Purpose powder compound provides a high quality drywall joint finish at a low cost. Product stored in cold conditions will not affect performance. Use to embed tape, conceal and finish joints, fasteners, and trim accessories on gypsum wallboard when the convenience of a single compound product is desired. May be applied with either hand or mechanical tools.
